

Microbrush[®] **DUO**[™]

NEW!

An Extension of You

Ergonomically designed, DUO's stay-put bend holds its shape so you can focus on the patient—moving seamlessly with you during every procedure.

Precision Redefined

DUO delivers exact, drip-free flow—applying the right amount every time for adhesives, etchants, sealants, and more, so you can work confidently without guessing.

Double Bend Design

DUO's dual bends reach tight spots others can't, and hold their shape, making precise application smooth and natural—giving you confidence and ease every time.

PRECISION, PERFECTED.

When your tools work as hard as you do, every procedure gets sharper, smoother, and more successful. Microbrush DUO redefines what's possible with a revolutionary double-bending tip that grants effortless access to the toughest areas, precision control that eliminates waste, and ergonomic comfort that feels like second nature. Engineered for professionals who demand consistency, performance, and reliability—DUO doesn't just keep up, it elevates. Ready to reach further, deliver smarter, and work more confidently?

DUO DELIVERS.

DOUBLE-BEND DESIGN

DUO's innovative double-bending tip unlocks access to the most challenging areas, giving clinicians precision where it matters most.

ULTIMATE CONTROL

Designed to feel like an extension of your hand, DUO offers unmatched stability and ergonomic ease during every procedure.

OPTIMAL DELIVERY

From etchants to adhesives, DUO ensures consistent, controlled application for flawless results every time.

PRECISION IN EVERY BEND.
CONTROL IN EVERY DROP.
