

Lorvic™ Surgical Milk

Pre-Autoclave Instrument Dip

Extend the Life and Performance of Your Instruments

Lorvic™ Surgical Milk is a concentrated, pre-autoclave dip formulated specifically to protect and enhance the longevity of surgical instruments. Its advanced, non-toxic composition ensures instruments stay rust-free and optimally lubricated.

Key Features and Benefits:

Rust Inhibition: Protects instruments from corrosion.

Effective Lubrication: Ensures smooth movement and reduces wear on hinges.

Safe Composition: Non-toxic and odor-free for user comfort and safety.

Sterilizer Compatibility: Suitable for steam, dry heat and chemical vapor sterilizers.
