

DryTips® FAQs: Information you can quickly absorb

1. What are the benefits of DryTips compared to a cotton roll?

- One DryTip will absorb as much liquid as 5 - 6 cotton rolls
- Protects the patient from instrument nicking
- Smaller moisture control pad enhances patient comfort

2. What are the ideal uses for DryTips?

- Impressions
- Occlusion Grinding
- Orthodontics
- Paint-on Techniques
- Composites
- Cementation
- Fissure Sealing
- Fluoride Applications

3. What are the product features?

- Complete coverage of parotid gland and entire buccal mucosa with polyethylene film for cutting protection
- Facilitates work far back in oral cavity
- Flexible; accommodates to cheek movements
- Comfortably stays in place, yet is easily removed with water spray
- Reflective coating provides increased visibility
