

Disposable 7-Hole Air/Water 3-Way Syringe Tips

Reliable, Efficient, and Hygienic Performance

DEFEND® Disposable Syringe Tips are expertly designed to deliver precise dry air and effective irrigation, significantly minimizing cross-contamination risks. Offering exceptional performance and value, they are ideal for cost-conscious practices committed to patient safety and treatment efficacy.

Key Features and Benefits:

Quad Core Design: Delivers instant dry air with distinct separation of air and water channels.

Enhanced Infection Control: Single-use to significantly reduce cross-contamination.

Universal Compatibility: Fits most standard air/water syringe systems without extra adapters.

Rigid & Smooth Construction: Provides patient comfort and reliable retraction.

Latex-Free Material: Safe choice for all patients, including those with sensitivities.

Ideal for:

- Sealant applications
- Restorative treatments
- General irrigation and drying tasks
